

H156K1W

Product Specification
(RK3288)

| Model | Date of revision | Version | Record |
|---------|------------------|---------|-----------------|
| H156K1W | 2023/05/10 | V1.0 | Initial version |
| | | | |

Product description

H156K1W series, an industrial Android touch display intelligent terminal R&D by 4 core A17 hardware platform, equipped with Android 7.01 operating system and a powerful human-machine interaction system with a 15.6 inch full-view LCD and capacitive touch screen. The product has a light, thin and flat appearance, high overall fit and easy installation, and can be used in indoor and semi-outdoor environments.

Product advantages

- ☑ Android 7.01 operating system, compatible with 99% industry application software, supports independent design APK Program installation.
- ☑ Support WIFI/4G/Ethernet and other networking methods to enable remote data transmission, upgrade and update
- ☑ Supports RS232, RS485, and other communication interfaces for exchanging information with external devices.
- ☑ Support 1080P language calls and 2 million dual camera.
- ☑ Support voice and video play.
- ☑ Industrial-grade capacitive touch solution, stronger anti-interference, widely used in a variety of complex industrial scenarios.
- ☑ Industrial embedded installation design, suitable for various industries.
- ☑ Passed CE/ROHS certifications and has stable and reliable guarantee.

Industry Applications

Industrial control equipment

Power equipment

New energy Charge and exchange

Medical Instrument

Industrial handheld equipment

Industrial handheld equipment

Vending equipment

Smart home

Vending equipment terminal

Access control system

Instrumentation

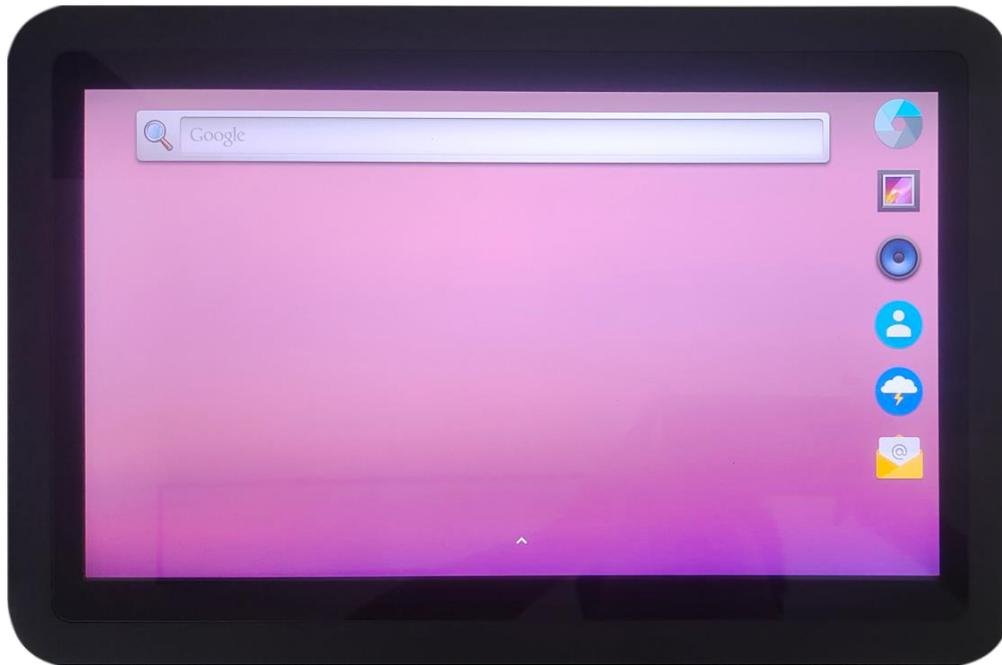

Robot

3D Printing

Product parameters

| Screen parameters | Data | Explain |
|---------------------------|---------------------------|-------------------------------|
| Screen size type | 15.6inches | Screen ratio 16:9 |
| Resolution | 1920*1080pixels | 16,700,000 true color display |
| Color | 16,700,000colors | - |
| Display size (A.A.) | 403.2(W)*261.2(H)*45(T)mm | - |
| Size of the whole machine | | |
| Backlight brightness | 275 nit | Screen brightness adjustment |
| Perspective (CR>10) | Full perspective | Panel type: IPS |
| Backlight life (hours) | 30000Hrs | LED backlight |

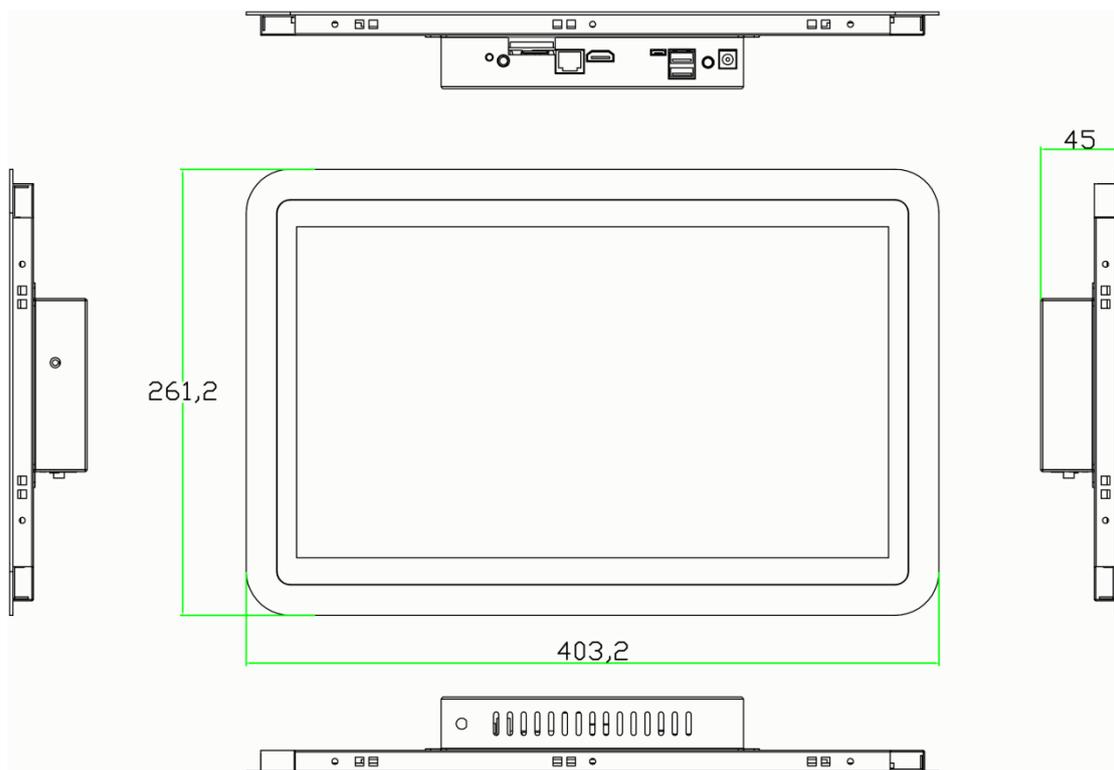

| Motherboard core parameters | Data | Description |
|-------------------------------|---|---|
| CPU processor | Rockchip RK3288 | 4 Cortex-A17 1.8 GHz |
| Operating system | V7.01 | Typical value |
| Running memory | 2GB | 4*512MB, DDR3 (4G available) |
| EMMC | 8GB | EMMC5.1 (32G available) |
| Touch form | 5-point capacitive type and single-point optional | - |
| TP surface hardness | 7 | Mohs hardness |
| TP light transmittance | > 85 | - |
| Operating voltage and current | 12V (Typical value) 900mA | Minimum 8V, maximum 24V, recommend 12V 2A or more DC regulated power supply |
| Power interface | DC005; | |

| Interface parameters | Data | Description |
|----------------------|---|---|
| Interface | Default first interface: RS232 | Serial port 1, port number:ttyS1 |
| | Default second interface: RS232 | Serial port 2, port number:ttyS2 |
| | Default first interface:RS485 | Serial port 3, port number:ttyS3 |
| | Default second interface:RS485 | Serial port 4, port number:ttyS4 |
| | Maximum baud rate:115200 | |
| USB | Maximum baud rate:115200 | Supports 2 megapixels if connected to a USB |
| Audio | 1 channel mono MIC/dual channel HPO (3.5mm earphone), 2 channels mono SPK (4Rx3W) | |
| TF card | 1 road | Maximum 64G |
| Ethernet | 1 road | 10/100M adaptive network interface |
| WIFI | 1 road | IEEE 802.11Bb/g/n, 2.4G; *5G Optional* |
| Blue tooth | 1 road | V4.0 |
| 4G module | Full Netcom | *Optional* |

Environmental parameters

| Type | Project | Specification parameter |
|-------------------------------------|---------------------|-------------------------|
| Working temperature test parameters | Storage temperature | -30 ~ 80°C |
| | Working temperature | -20 ~ 70° C |
| | Relative humidity | 10~90% RH |
| Reliability parameters | EMC | Class B, EN55032 |
| | ESD | Level 3 |

Product Size Diagram

【Hardware interface description】

Description of power supply and serial port communication

| Terminal | Terminal Screen Printing | Definition | Description | Remarks |
|---------------|--------------------------|------------|---------------------------------------|--|
| DC005 | DCIN | - | Min 8V, Max 24V, Typical 12V 700mA | |
| 2EDG-3.81-10P | RS232-TX1 | TX1 | Software Identification Port ttys1 | Default interface 1 output at RS232 level; can also be changed to RS485 level by Bom |
| | RS232-RX1 | RX1 | | |
| | GND | GND | Place of external export | |
| | RS232-TX3 | TX3 | Software Identification Port ttys3 | Default interface 3 output at RS232 level; can also be changed to RS485 level by Bom |
| | RS232-RX3 | RX3 | | |
| | GND | GND | External 12V ground output | |
| | RS232-TX2 | TX2 | Software Identification Port ttys2 | Default interface 3 output at RS232 level; can also be changed to RS485 level by Bom |
| | RS232-RX2 | RX2 | | |
| | RS232-TX4 | TX4 | Software Identification Port ttys4 | Default interface ttys4 is output at RS232 level; it can also be changed to RS485 level by Bom |
| | RS232-RX4 | RX4 | | |
| CAN Terminal | CANH | CAN High | | - |
| | CANL | CAN Low | | - |
| | GND | GND | | |

Audio Part

| Terminal | Terminal Screen Printing | Definition | Description | Remarks |
|------------|--------------------------|----------------------------|---------------|---------------------|
| Horn left | L | Left channel horn positive | 4 ohm 3W horn | PH2.0MM-2P Terminal |
| | L | Left channel horn positive | | |
| Horn right | R | Left channel horn positive | 4 ohm 3W horn | PH2.0MM-2P Terminal |
| | R | Left channel horn positive | | |

4G SIM Card Holder

| Terminal | Terminal Screen Printing | Definition | Description | Remarks |
|----------------|--------------------------|---------------------|-------------|-------------|
| 4G Card Holder | - | Standard large card | Flip-top | Can support |

Burning Key

| Terminal | Terminal Screen Printing | Definition | Description |
|-------------|--------------------------|------------|--|
| Burning Key | BOOT | - | After installing the Phoenix tool on your computer and installing the driver with 360 Mobile Assistant; press and hold the BOOT button, plug in the power and power on, release the button after 3 seconds; plug in the MINI USB burner cable, then the firmware can be burned |

MIC Interface

| Terminal | Terminal Screen Printing | Definition | Description | Remarks |
|----------------------|--------------------------|------------|-------------------------------|----------------------|
| Microphone Interface | MIC | - | Condenser electret microphone | SH1.25MM-2P terminal |

USB

| Terminal | Terminal Screen Printing | Definition | Description | Remarks |
|-----------------------|--------------------------|---------------|-----------------|---------|
| Double Layer USB port | USB | USB-A | USB2.0Interface | - |
| | | USB-A | USB2.0Interface | - |
| PH2.0-4P | | USB1-PH2.0-4P | USB2.0Interface | |
| PH2.0-4P | | USB1-PH2.0-4P | USB2.0Interface | |
